

BOSTON BUSINESS JOURNAL

Notable projects by the largest architectural firms

May 8, 2015

CBT Architects, the BBJ' No. 3 ranked architectural firm in the state, based on 2014 Mass. billings, has been retained by the Shorenstein Company to reposition and rebrand 1-2-3 Center Plaza in Boston with the goal of improving the building's retail experience and presence on City Hall Plaza. The nine-story building currently has more than 61,000 square feet of retail space. Construction on the project is expected to start this fall and expected completed between the winter of 2016 and spring of 2017.
